Stephen Gee helped us enormously with the design and planning process involved in renovating our run down Californian Bungalow. Stephen was involved from the initial consultation with the builder and he provided us with a few options in which we could renovate our home to maximize its potential. He assisted us with the planning permission required to undertake the renovation and was extremely knowledgeable and helpful with the heritage aspects of our build. His involvement with the council assisted us enormously.

At all times Stephen was friendly, helpful and professional in his manner. His diligence was much appreciated and we would have no hesitations in recommending him or using his expertise for future projects.

Warm Regards  
Dee & Chris Price

A handwritten signature in dark ink, appearing to read 'Dee Price'. The signature is written in a cursive, flowing style with a large initial 'D' and 'P'.
